

A superior bank transfer experience with HDFC Bank

International education payments made easy with a completely digital payment experience for Indian students who have a HDFC Bank account

About HDFC bank transfers

Flywire has partnered with HDFC Bank to provide HDFC account holders with a seamless bank transfer option to make their international cross-border education payments in Indian Rupees (INR). This secure option allows the payer to complete their payment entirely online, streamlining payment verification and LRS requirements to help accelerate the bank transfer process. Payers can send up to \$25,000 per transaction through Flywire, without transfer fees being charged by HDFC Bank. Note: Indian resident payers will be subject to the annual LRS limit of \$250,000 across all of Flywire's INR bank transfer payment methods.

How to make a HDFC bank transfer

Making a HDFC Bank transfer through the Flywire platform is easy!

1. Simply select India as the country of origin, and the 'HDFC Online Bank Transfer' option
2. Begin the payment process on the Flywire site by entering all relevant student and payer details
3. Automatically get redirected to HDFC Bank's Online Bank Transfer Platform to login to your HDFC account, verify payment details and complete the transaction

Note: TCS (if applicable) and GST will be deducted separately from the payer's bank account. Neither PAN nor LRS information will be required from the payer, as HDFC captures this information from account holders during the initial account onboarding and verification process.
